I. INTRODUCTION
This research paper is based on the rule of karma. All the activities we do have a consequence. If we do good work, we are rewarded accordingly. And we are punished by our sins. We will see further how Koka and Vikoka will pay for their bad deeds, investment of current Kings and Queens and their reward, God’s rules of give and take & the action of Vaishno Devi and the reaction from people.

II. KOKA AND VIKOKA
Twin evil generals of Kali as they are known are expert in their fields. They both have similar success and people in family, hence they are confused as twins. They both share a boy each with Mata Vaishno Devi. The reason why they both have a child with Maa is because God doesn’t want people to celebrate the deaths of the two evil kings like was the case in Ramayana where people celebrate Dussehra each year since ancient times. Since God is great and kind even to those who evil, he wants to add goodwill of the Goddess to their names so people may not think of them as entirely bad. The sins that they did include torture of the Goddess by Koka and exploitation by Vikoka. They both have their own reasons for falling in love with her thanks to their past bad experiences. Since they are evil, Vaishnavi leaves both of them one by one. They are kings because they are not completely bad. They have a good side which adds to their good karma which explains why they are made kings. But their bad side is equally prominent which is why Lord Kalki kills them for good. This is by evolution of people that they became kings like never before.

IV. MAHABHARRATA CHARACTERS – WHERE ARE THEY NOW
The Lions of Sabi Sand: Brothers in Blood tells the incredible journey of Africa’s most notorious pride - a deadly group of six male lions. Over the past 16 years, the lions have been filmed by professionals and amateurs who have witnessed the five brothers and one half-brother stand together in the brutal wilds of South Africa. Rangers and biologists were astounded by the pride’s relentless hunger for domination, as they showed no fear in massacring other lions - and their cubs - in order to expand their territory. Over just one year, the six lions killed over a hundred lions, and conquered an incredible amount of land. Their story is one of shocking violence, deception, and thirst for power - and reveals a surprisingly sophisticated side to the politics of lion behavior.
